Narration

In writing or speech, **narration** is the process of recounting a sequence of events, real or imagined. It is also called storytelling.

The person who recounts the events is called a **narrator**.

The account itself is called a **narrative**.

The perspective from which a speaker or writer recounts a narrative is called **point of view**.

Types of narration:

There are 3 forms of narration.

1. First Person – In this point of view, a character (typically the protagonist, but not always) is telling the story. You will notice a lot of “**I**” and “**me**” or “**we**” in first person narrations.

2. Second Person - In this point of view the author uses a narrator to speak to the reader. You will notice a lot of “**you**” “your” and “**yours**” in second person.

3. Third Person –In this point of view, an external narrator is telling the story. You will notice a lot of “**he**”, “**she**”, “**it**”, or “**they**” in this form of narration.

Main elements of a short story

1. Theme–message, moral, an abstract idea, a lesson learnt etc.,
2. Plot – adventurous, scary, a mystery, suspenseful, comic etc.,
3. Setting –realistic/fictional
4. Characters–cheerful/happy, tensed, scary, suspenseful or neutral, depending on the question
5. Mood/Atmosphere

Points to be kept in mind :

- (1) Focus should be on a single incident.
- (2) Always use past tense while writing a story.
- (3) Make sure that the story has a moral /message if it requires one.
- (4) A title may be given to the story if the question requires it; otherwise it is optional.

The fraud took place through a branch of Punjab National Bank. Punjab National Bank said that its own officials violated rules and issued illegal guarantee documents to help the celebrity jewellery secure credit from overseas bank branches using SWIFT financial communication system. The scam occurred between 2009 and 2017. Fugitive Nirav Modi has been arrested in London and extradition hearings are in process.
2. Dubbed as 'India's Enron scandal', the 2009 corporate scam shook the Indian investors and shareholders community. Ramalinga Raju, the Chairman of Satyam Computer Services, confessed that he had falsified the company's accounts, inflating the revenue and profit. The fraud involved Rs 14,000 crore.
