dividend - _____

Divisor - _____

Quotient- _____

Remainder - _____

2. Learn and Write table - 19.

Class-4: EVS

Day-25

Date:29.04.2020

Birds:

- ✓ There are over 10,000 living species of bird on Earth and they live on all continents – including the Arctic and Antarctica. Birds are social creatures which is why they travel in a flock.
- ✓ Birds have feathers and beak with no teeth.
- ✓ Birds have a very lightweight but strong skeleton.
- ✓ Birds have forelimbs that are covered with feathers and are called wings. The wings and lightweight skeleton allows them to fly.
- ✓ Birds range in size from the 2 inch Bee Hummingbird to the Ostrich which can grow to 9 feet tall.
- ✓ They communicate using songs and calls. They can also communicate by using visual signals, such as quickly flapping their wings.
- ✓ There are currently about 1,200 species of birds are threatened with extinction, though efforts are underway to protect them.
- ✓ The bird's beak depends on the food it eats. Same way their claws differ with the place they live.
- ✓ Each kind of bird makes its nest in a different way. Most birds take care of their young for an extended length of time after hatching.

Activity: Try to draw the following bird and label its parts.
