Worksheet

---

Class: **VI - TELUGU**

Day – **24**

Date: **28.04.2020**

పల్లెటూరి అందాలను వర్ణిస్తూ ఒక గేయం రాయండి.

**TESTS FOR DIVISIBILITY OF NUMBERS**

➤ **Learn the given divisibility rule.**

- **Divisibility by 6:** - If a number is divisible by both 2 and 3, then the number is divisible by 6.

**Example: 1) 576**

**Step - 1) Divisibility by 2**

576 has 6 in its one's place (also it is an even number), so 576 is divisible by 2.

**Step - 2) Divisibility by 3**

Sum of the digits of 576 =  $5 + 7 + 6 = 18$

The sum 18 is a multiple of 3.

So, 576 is divisible by 3.

Therefore, 576 is divisible by both 2 and 3, also it is divisible by 6.

(by doing actual division you will get a remainder as 0)

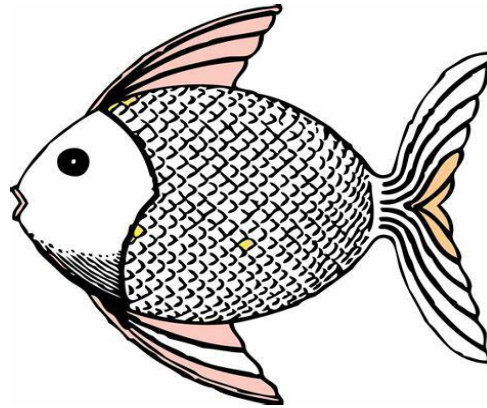

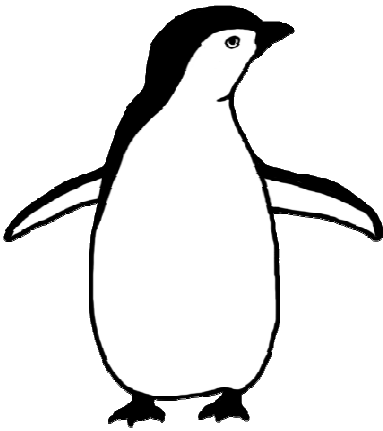

*Note : - If a number is neither divisible by 2 nor divisible by 3, then it is not divisible by 6.*

- **By using the above divisibility test, check whether the following numbers divisible by 6 or not.**

a) 226      b) 678      c) 791      d) 594      e) 100

**THE LIVING ORGANISMS-CHARACTERISTICS AND HABITATS**

1. Living things have certain common characteristics- they need food, they respire, excrete, respond to their environment, reproduce, grow and show movement.
2. The presence of specific features and habits, which enable a plant or an animal to live in a habitat is called adaptation.
3. Identify the given picture and write its habitat.
