Date: **27.04.2020**

DIALOGUE WRITING

Read the conversation between two friends and complete the dialogue in a suitable way.

Shruti : Did you visit the book fair in Pragati Maidan?

Arushi : No. Did you?

Shruti : Yes, (i)

Arushi : Did you buy any books?

Shruti : Yes, (ii)

Arushi : Well, what sort of science fiction books did you buy?

Shruti : Stories about space and unidentified flying objects.

Arushi : Were (iii).....?

Shruti : Yes, books of all the subjects were available there.

Arushi : Do you have any idea (iv)..... ?

Shruti : I guess it will go on till 30th of this month.

Arushi : Then I'll definitely go there and buy some good books.

Academic year (2020 – 2021)

Worksheet

Class: **VII - SCIENCE**

Day – **23**

Date: **27.04.2020**

Read the given information and prepare at least 8 fill in the blanks of your own along with answers:

Polythene bags and plastics pollute the soil. They also kill the organisms living in the soil. That is why there is a demand to ban the Polythene bags and plastics. Other substances which pollute the soil are a number of waste products, Chemicals and pesticides. Waste products and Chemicals should be treated before they are released into the soil. The use of pesticides should be minimised. The removal of land surface by water, wind or Ice is known as erosion. Plant roots firmly bind the soil. In the absence of plants, soil becomes loose. So it can be moved by wind and flowing water. Erosion of soil is more severe in areas of little or no surface vegetation such as deserts or bare lands. So cutting of trees and deforestation should be prevented and effort should be made to increase the green areas.
