

## **Importance of Girl Child**

'Don't be afraid to give up the good to go for the great.' World is changing, we should also change accordingly.

Girls play multiple roles in the household, society and the economy. How can we expect the world without a Girl Child?

Without her we cannot think about our existence. So, to save humans from extinction we have to take measures to save girl child. It's a common practice where people abort or kill girl child on birth. But, they should be saved and given equal opportunity, respect and chance to go ahead in life.

A girl child needs to be mentored and taught the proper values that will improve her. A girl child needs to be provided, cared, cherished and loved. She needs to be affirmed repeatedly that she is priceless. Parents, care-givers, governments and the society at large owe her all these.

It is very important to educate girls because education can mould the life of a woman in a considerable way. She can make correct decisions regarding her career, marriage and family on her own. She would recognize her rights in society and act upon them as per her conscience.

We should bring public awareness about the inequities that girls face in Indian society and support them in all the ways. Girls deserve equal rights in the society.

So Save Girl Child, think positively about them, they will add colours to the family of our Nation.
